MIAMI POLICE DEPARTMENT

Date: September 16, 2013

Subject: MIAMI POLICE GOES SOCIAL

Today, the City of Miami Police Department will publish their Facebook and Twitter pages. The Department hopes to utilize social media as a way of reaching out to the public for their help in solving cases, as well as, providing the community with valuable safety information.

The pages will be monitored as staffing permits and the public is reminded that it is not the forum to report a crime. Citizens must dial 911 or the police non-emergency line (305-579-6111) when requiring police/fire assistance.

Miami Police believes that this is just another tool to help fight crime and that it will take the Department into the future.
